LifeSource Water System Proposal for Indian Wells Golf Resort

Dear George,

It was a pleasure speaking with you and after review of water bill and determining scope of work that will need to be done, below is a quote for a new LifeSource Domestic Water Treatment for Indian Wells Golf Resort. A few things to consider:

- This system recommendation connects to where your 4" main
- 10–12-week lead time needed to build the systems
- Water to building shut off approx. 2 hrs.
- 4-6 hrs. for install/ 4-6 hours for tank removal the day before
- Customer Responsibility
 - None

LifeSource ScaleSolver features/benefits:

- These are not water softeners
- Eliminates need for salt/mineral additives or other chemicals to prevent scale buildup
- Easy to install, no electricity required, no controllers to set, no mixing/blending valves
- No water wasted or brine discharge (supports local water conservation sensitivity)
- Extends life and energy efficiency of most hot and cold-water appliances, fixtures, and plumbing along with boilers and water heater
- Virtually maintenance-free

LifeSource Water Filter benefits include:

- Our filters reduce and remove chlorine, dirt and sediment for clean, great tasting water from every tap
- More environmentally friendly – can become valuable water quality amenity
- Eliminates the need for bottled water
- Great for bathing, cleaning, cooking, laundry (use less soap and detergents)
- Minimal amount of potable water during backwash from rinse line once every 12 days

Main Line

Install Location

<i>Item</i>	<i>Description Option A</i>	<i>Units</i>	<i>Price</i>	<i>Total</i>
4140LE	LifeSource Commercial Filter 2"	2	\$11,731.00	\$23,462.00

Installation, Delivery, Setup	LifeSource (Installation, removal of existing tank)			\$4,500.00
Tax	Indian Well Sales Tax 7.75%			\$2,493.70
Total				\$39,170.50

George, this is a great water treatment solution for you to implement a sustainable, domestic water treatment system and water quality that all guests will enjoy. It will not only provide all with clean, healthy filtered water, but will also eliminate any and all use of bottled water. No plastic to dispose of and everyone can drink from any water source (sink, showers, bathroom faucet, etc.) but will also protect the building boilers, pipes, fixtures, appliances and water heaters, which will all last longer as a result of having the Filtration and ScaleSolver Conditioning System.

Please let me know if you have any questions.

Best regards,

Jason Sagen
